

Sir's, I am a long-haul truckdriver who has had my XM Raido for about one year. It is a service that I PAY FOR!! I can listen to a large spectrum of Music, News, Weather, Sports & Talkshows that I CAN NOT get with on air raido stations. I feel that the on air raido stations across the United States can not compair with the level of quality that I get with my XM Raido. Also with the new channels for traffic & weather for different cities, it helps me plan my route through these cities, saveing myself timeand most importantly FUEL. At over \$1.75 per gallon, the fuel saveings alone will pay for my subscription to XM Raido several times over.

In this day of nudity on prime-time TV,coarse language on the on air raido stations, I feel that it is my right to pay for and recive the kind of programing that I want to lisen to, without being told that I can't by the very people that have lost touch with the public that thay clame to serve.

Please reject the NAB's petition 04-160!!!!

Thank you for your time,

Wendell Van Ett
